

PRODUCT DATA SHEET

ECONO-398 POWDERED BIOCIDES ADDITIVE

ECONO-398 is a powdered biocide packaged in 1.0-lb water-soluble bags for easy application. It is effective against a wide variety of microorganisms in most oilfield water applications.

PHYSICAL PROPERTIES

Density	46.4 lbs/ft ³
Solubility in Water	Highly Dispersible
Solubility in Diesel	Insoluble
Appearance	White Powder
Odor	Slightly pungent
Flash Point	285°F

CHEMICAL DESCRIPTION

ECONO-398 is 98% active and packaged in water soluble bags.

RECOMMENDED USES

ECONO-398 is best added to frac or flush water tanks before or during water transfer. Though the biocide bag is readily water soluble, some agitation is required to be certain that treatment gets to all of the fluid. Typical effective doses in relatively clean water are 1-2 bags per 25,000 Gallons. Previously gelled fluids or those with heavy bacterial contamination may require higher doses
