

# PRODUCT DATA SHEET

## ECOPOL-FR2

### BIODEGRADABLE FRICTION REDUCER ADDITIVE

#### GENERAL INFORMATION

**ECOPOL-FR2** is a high molecular weight, biodegradable friction reducer. This product is designed to enhance the water displacement in oil wells by considerably reducing the friction pressure experienced at very high flow rates.

#### ADVANTAGES

**ECOPOL-FR2** is designed to perform similarly to other friction reducer additives, but with a biodegradable active ingredient. **ECOPOL-FR2** performs more efficiently than most acrylamide based polymers at high salt concentrations and also can be broken with conventional fracturing fluid breakers (oxidizers, enzymes, etc.).

#### PROPERTIES

Appearance	Beige Color Slurry
Specific Gravity	1.05

#### FEEDING AND DOSAGE

Recommended use levels are 0.25%-1.0gal/1000gal in water. This product should not be used neat. Use positive displacement pumps (gear or progressive cavity).

#### STORAGE

Keep container sealed and away from moisture.

#### PACKAGING

**ECOPOL-FR2** is available in 264 gallon totes, 317 gallon totes, or bulk.
